

Bixler Farms Profitability Report						
Revenue						
	Loads	Price Per Load	Total			
White Wood Mix		\$	\$			
Total Revenue						\$
Grinding Cost						
	Hours	Rate Per Hour	Cost			
</						

I was tasked with reporting the profitability of an Offsite Production job. After analyzing the accounts payable and receivable I constructed a profitability report for the Bixler 2018 job (ref: Upper Report).

I constructed an operations efficiency report for stakeholders which compared the costs of Bixler 2018 to Bixler 2017 (ref: Lower Report). This resulted in stakeholders understanding that even through the Bixler 2018 job was the smaller of the two, the large difference in profit was a result of grinding material taking more time and costing more per hour.
